Healthcare professionals and institutions around the world strive to provide the highest quality care to their patients.

JBI’s evidence-based practice model is considered a benchmark in the healthcare industry. JBI’s unique suite of evidence-based content and software ensures that health professionals can access high quality evidence, appraise diverse types of evidence and apply evidence at the point of care, to meet today’s rigorous quality standards and improve patient outcomes.

**Why JBI EBP Resources on Ovid?**

- Evidence-based content and software from a leading evidence-based practice organization—only available on Ovid
- Summarized research in a format that is easy to locate, understand, and distribute
- Diverse range of resources that go beyond therapeutic medical interventions, to look at patient and caregiver experiences, report on costs, diagnostics, and prognostics.
- Improved patient outcomes by extending the reach of clinical practice guidelines tailored for your institution or community

**Evidence to Inform Clinical Practice**

**JBI Evidence Synthesis**

An international peer-reviewed, online journal that publishes rigorous evidence syntheses relevant to a range of healthcare contexts and health conditions. JBI Evidence Synthesis is the premier channel for diverse systematic reviews that move beyond inclusion of RCTs and experimental studies, providing the best available evidence for health professionals to aid point of care decision making and healthcare administrators to inform health policy and practice.

The journal publishes systematic and scoping review protocols, diverse types of systematic reviews, and scoping reviews covering multi-disciplinary healthcare-related topics that follow rigorous methodology and methods developed by JBI. Fully indexed in Embase®, MEDLINE®, and CINAHL®.
JBI Evidence-Based Practice Resources on Ovid®
