Lippincott® CoursePoint: On the front line of LEARNING

Lippincott® CoursePoint

Designed to help students understand, retain, and apply their course knowledge, and prepare them for practice. **Lippincott® CoursePoint** is an integrated, digital curriculum solution that provides a completely interactive and adaptive experience for nursing education.

Innovation begins with this powerful platform.

CoursePoint is engagement that educates and entertains. It's learning with a purpose to show tomorrow's nurses how every learning activity applies to the real world. Content and study tools are delivered where today's students are. This keeps them focused on improving their outcomes so they stand tested and ready to be clinically competent nurses.

Lippincott® CoursePoint+: On the front line of PREPARING FOR PRACTICE

Lippincott® CoursePoint+

Go beyond the classroom.

Nurses shouldn't face an on-the-job learning curve. **Lippincott® CoursePoint+** takes preparing for practice to a new level by integrating innovative tools such as **vSim® for Nursing** and **Lippincott® Advisor** directly into its platform. Combined with the evidence-based content of **Lippincott® Advisor**, students

get the opportunity to assess, interpret information, make appropriate decisions, and take impactful actions to promote better health outcomes. Most importantly, **CoursePoint+** helps students build the clinical judgment skills needed to succeed in practice.

Trusted Content

Expert-authored, time-tested content provides a strong, evidence-based foundation for nursing education and a successful transition to practice.

Tested Technology

Used by more than 1 million nursing students over a decade, our platform is continually tested, evolving, and improving to meet the changing needs of students and instructors.

Preparation for Practice

Students prepare for practice and build clinical judgment skills with innovative tools that help them think critically about patient care.

Actionable Insights

CoursePoint provides in-depth dashboards with key data and insights to help instructors track student progress and identify strengths and weaknesses.

Adaptive and Engaging Learning

Lippincott® CoursePoint provides a variety of learning assets to support multiple learning teaching styles. Tools like **PrepU**, an adaptive quizzing platform, offering a personalized learning approach and case studies that challenge students to apply what they've learned to real-life scenarios.

Support to Help You Succeed

Count on personalized support and training on all our digital products — Getting Started Webinars, Course Integration Webinars, Ask-an-Expert Services, and more.

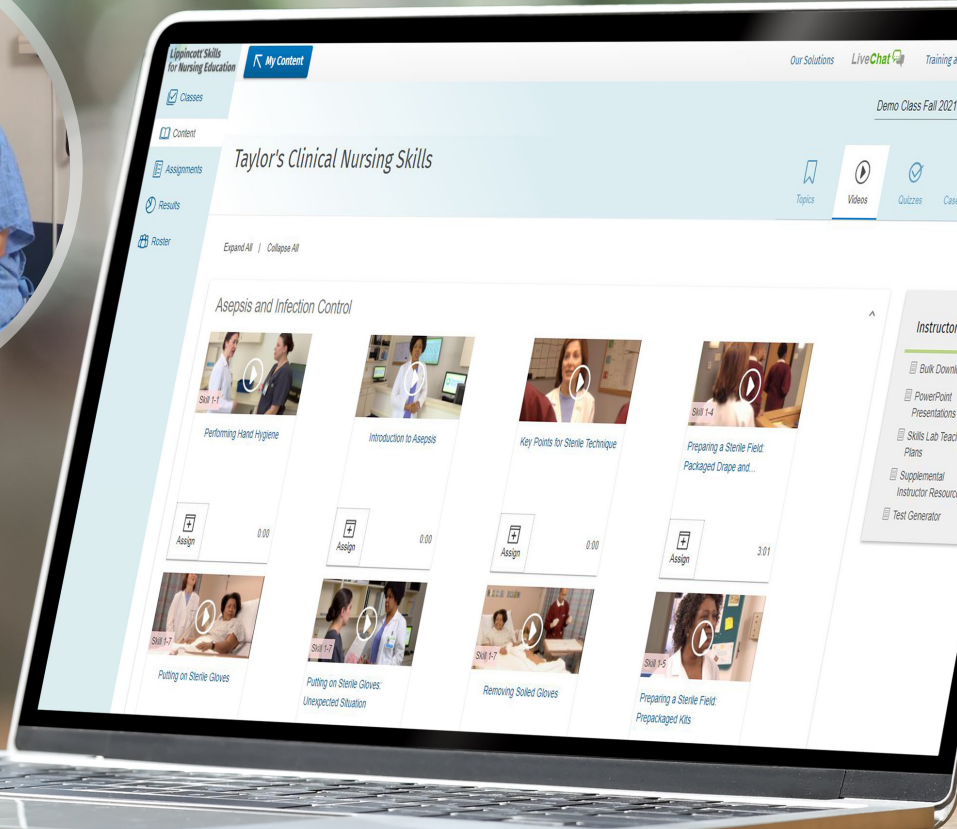

Introducing Lippincott® Skills for Nursing Education Taylor's Clinical Nursing Skills Collection

On the front line of SKILLS PREPAREDNESS

Available anytime, anywhere, **Lippincott® Skills for Nursing Education** is designed specifically to empower nursing faculty and students to support teaching, learning, and reporting on nursing skills across the curriculum. Expert-authored skill instructions, evidence-based rationales, videos and case studies help the novice nursing student master new skills and confidently prepare for skills lab and clinical settings.

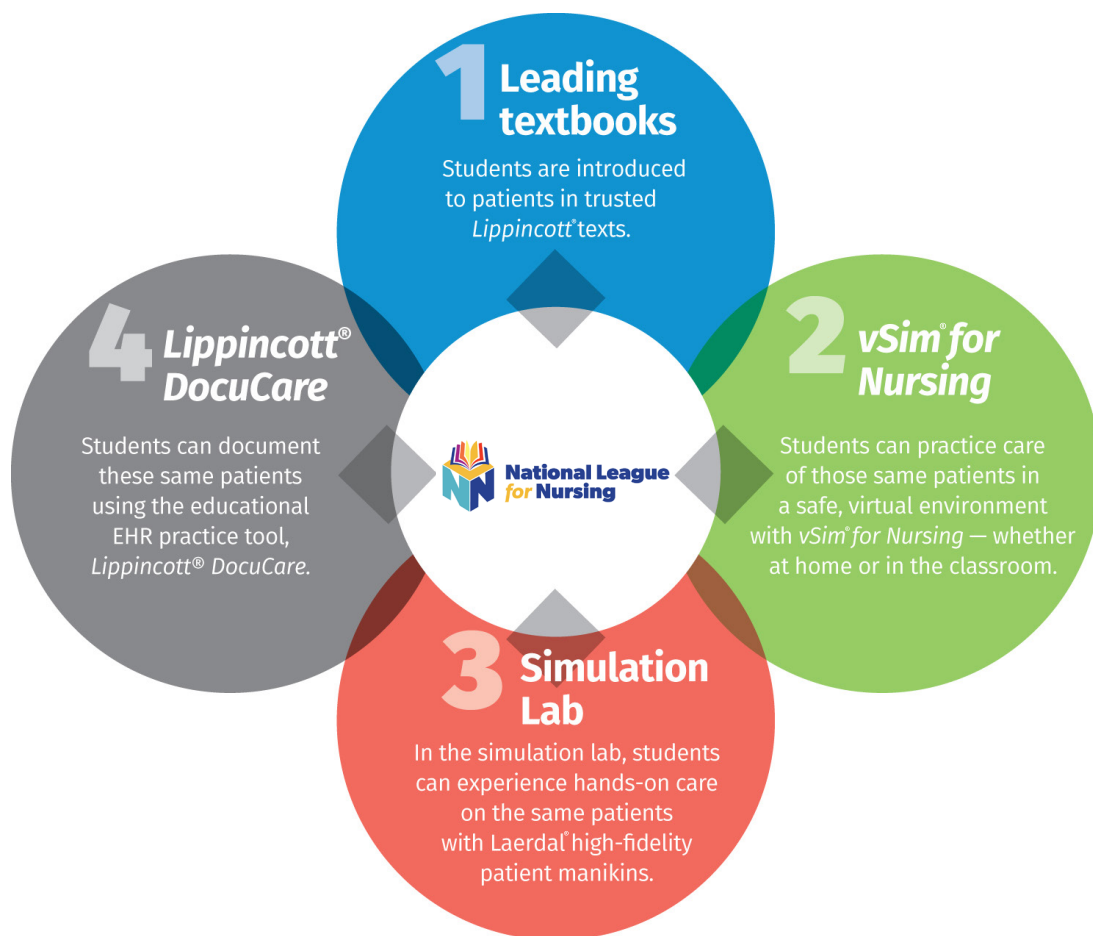

Lippincott® Skills for Nursing Education offers an efficient learning experience backed with tools to monitor and motivate student preparedness and skill competency.

Taylor's Clinical Nursing Skills Collection, authored by Pamela Lynn, EdD, MSN, RN, delivers a robust set of essential skills for the undergraduate nurse and meets the needs of students throughout the curriculum.

Cultivate student nurses' skill competency and clinical judgment with one comprehensive nursing education skills solution.

Wolters Kluwer curricular tools provide the full circle of clinical learning by utilizing NLN scenarios throughout the entire clinical experience.

Lippincott® DocuCare
On the front line of KNOWLEDGE

Promote clinical judgment and prepare students for practice.

Lippincott® DocuCare is an Electronic Health Record (EHR) web-based training solution built by a team of nursing educators and experts in health informatics. It teaches students the fundamentals of effective electronic documentation while fostering clinical judgment and critical thinking.

Patient Scenarios for Simulation

For truly unparalleled clinical education, *Lippincott*® DocuCare and *vSim*® for Nursing share the same set of evidence-based patient scenarios that were developed jointly with the National League for Nursing (NLN). This allows students to hone their critical thinking and prioritization skills treating the patient in *vSim*® for Nursing, chart the patient's record in *Lippincott*® DocuCare, and — if your program also uses Laerdal® Medical manikins — refine their psychomotor skills in the sim lab while caring for the same patient.

vSim® for Nursing

On the front line of CLINICAL PREPAREDNESS

vSim® for Nursing is co-developed by Wolters Kluwer and Laerdal® Medical with scenarios written by the National League for Nursing (NLN). The scenarios bring fidelity to the learning experience so students can engage, identify, and interpret information and assess appropriate nursing actions. Just like they will do in practice.

True-to-life clinical experience at your control

With comprehensive patient scenarios available throughout your curriculum, vSim® helps you deliver the real-world experience students need to transition to practice while honing the clinical judgment, competence, and confidence they'll rely on throughout their careers.

Lippincott® Clinical Experiences — co-developed with nursing educators Jone Tiffany, DNP, MA, RN, CNE, CHSE, ANEF, and Barbara Hoglund, EdD, MSN, FNP-BC, CNE — offers clinical experiences that consistently expose students to diverse settings, situations, and populations. As students immerse themselves in a safe and engaging virtual environment, they are exposed to the real-life application and complexity of key community, public, and population health concepts.

Through this solution, students are building their critical thinking skills by:

- Making observations
- Holding virtual conversations
- Triaging at a disaster scene
- Doing research online
- Conducting interviews.

Lippincott® PassPoint

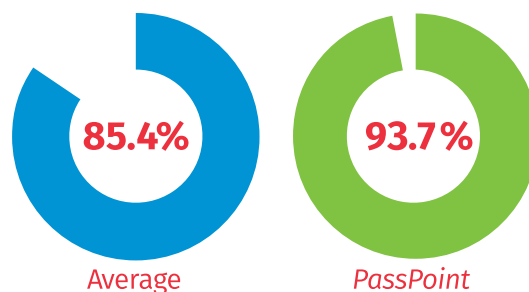

*On the front
line of NCLEX®
SUCCESS*

Adaptive, personalized NCLEX® preparation

Lippincott® PassPoint is the first and only adaptive, online NCLEX® preparation solution, delivering personalized NCLEX practice, superior pass rates, and unparalleled preparation for nursing practice. Just like the actual NCLEX, *PassPoint's* unlimited simulated NCLEX exams adapt to each student's performance and grow incrementally more challenging as students demonstrate mastery, building critical thinking and clinical judgment while boosting test-taking confidence. *PassPoint* helps faculty identify at-risk students early, provides a guide driven by performance data, and equips tomorrow's nurses for success on the front line of care.

Proven results. Proven success.

Students using *PassPoint* to prepare for the NCLEX have a passing rate higher than the national average.¹

Lippincott® Advisor:
*On the front
line of CLINICAL
DECISION SUPPORT*

A virtual library of answers.

Lippincott® Advisor is the leading, evidence-based clinical decision support software. It delivers to students — via mobile and desktop — 24/7 access to the same content that nurses encounter in practice. This helps promote student competence, confidence, and success as they transition from student to practice-ready nurse.

Lippincott® CoursePoint for Nursing Concepts

On the front line of CONCEPTUAL LEARNING

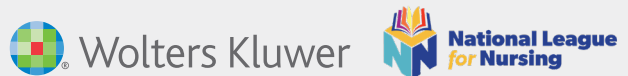

Lippincott® CoursePoint for Nursing Concepts is the only digital solution to bring together the key elements of learning — knowledge acquisition, assessment and remediation, skills mastery, patient-centered learning, and real-world practice — to prepare nursing students for competent, confident practice. This comprehensive solution organizes digital course content by concepts and exemplars, incorporating eBook pages, up-to-date evidence-based information, adaptive learning powered by PrepU, and interactive resources — such as case studies, videos, and animations — into a single connected experience.

New Editions!

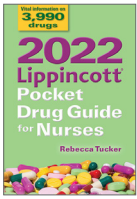

Inspiring Nurse Educators

Wolters Kluwer is committed to advancing the science of nursing education, advocating for educators, and sharing best-practice teaching strategies through the joint publication of respected NLN books and the premier NLN journal, *Nursing Education Perspectives*.

"We are focused on student success, and we decided the very first thing we had to do was to provide students with consistent resources in every course. Lippincott CoursePoint, vSim, and DocuCare are resources we can use from the very beginning of the program all the way through graduation. Having everything integrated has maximized our use of these resources and has enabled us to be learner-centered."

Marilyn Brady, Dean of Nursing, Trident Technical College
