CCH® Tagetik

CCH® Tagetik case study

How MFE-MEDIAFOREUROPE accelerated ESG reporting while scaling across Europe

Facing growing regulatory demands, expanding operations, and tighter reporting timelines, MFE-MEDIAFOREUROPE transformed ESG reporting with a unified platform that improves auditability, harmonizes disclosures, and helps teams work faster with AI-powered reporting.

"When I first saw Intelligent Disclosure at work, I was astonished by the fact that in a matter of a few minutes, I was capable of doing a job that took me hours or days in another scenario. It helps you do more, better, and in a more effective way."

Alessandro Mantini, Sustainability Reporting Manager, MFE-MEDIAFOREUROPE

Company

MFE-MEDIAFOREUROPE

is Europe's largest pan-European media broadcaster, operating across Italy, Spain, Germany, Portugal, France, and the UK. The group covers the entire media value chain, including content production, broadcasting, and advertising sales.

Industry

Media & Broadcasting

Uses of CCH® Tagetik software

- Financial Consolidation
- Management Reporting
- HR Planning
- Analytical Accounting
- IFRS 16
- Collaborative Disclosure Management
- CSRD Reporting
- Intelligent Disclosure
- Sustainability Reporting

Key facts

- **6.6 billion €** revenues (FY2025 pro-forma)
- **301 million €** net result (FY2025)

The challenge

As MFE-MEDIAFOREUROPE expanded from a national broadcaster into a pan-European media group, finance and sustainability reporting became increasingly complex. Regulatory requirements continued to grow, reporting timelines became tighter, and the addition of new entities expanded the reporting perimeter across multiple countries.

Prior to its ESG transformation, sustainability reporting relied on separate Word and Excel files, email-driven processes, manual translations, and disconnected workflows. Auditability was limited, reporting responsibilities were difficult to track, and ensuring consistency across disclosures required significant manual effort.

At the same time, new CSRD requirements demanded a more structured, controlled, and scalable reporting approach. The organization needed a solution that would not only address compliance requirements but also improve efficiency and support future growth

The objectives

MFE set out to:

- Create a single platform for ESG reporting and disclosure management.
- Improve transparency, auditability, and workflow control.
- Harmonize content across multiple contributors and languages.
- Support compliance with CSRD requirements.
- Accelerate reporting cycles despite growing complexity.
- Leverage AI to improve the quality and consistency of narrative disclosures.
- Extend existing finance reporting capabilities into sustainability reporting.

MFE-MEDIAFOREUROPE

CCH Tagetik case study

- **11,789 employees**
- Operations across **7 countries**
- CCH Tagetik customer for **more than 20 years**
- Recently onboarded **ProSiebenSat.1** into the reporting perimeter

Requirements

- Simplify increasingly complex ESG reporting requirements
- Improve auditability and control of sustainability disclosures
- Harmonize reporting across multiple countries and entities
- Reduce manual processes involving Word, Excel, email, and document sharing
- Accelerate reporting timelines despite growing regulatory demands
- Support rapid onboarding of newly acquired entities
- Leverage AI to improve efficiency and consistency of disclosures

Call-outs

- 20+ Years: Using CCH Tagetik across finance and reporting processes.
- < 2.5 Months: ESG solution implemented while completing year-end closing activities.
- 11,789 employees: Across a growing pan-European organization.
- From hours to minutes: AI-powered Intelligent Disclosure dramatically accelerates narrative reporting.

The solution

Building on more than two decades of success with CCH Tagetik in finance, MFE selected **CCH Tagetik CSRD and Intelligent Disclosure** to modernize sustainability reporting.

The company implemented a pre-packaged CSRD solution that supports the full reporting lifecycle, from data collection and disclosure preparation through reporting and auditability. The platform combines quantitative KPI collection, qualitative disclosures, workflow management, Office 365 integration, and AI-powered reporting capabilities within a single environment.

A key differentiator was **Intelligent Disclosure**, which helps teams harmonize narrative reporting, maintain a consistent tone of voice, and accelerate content creation while remaining aligned with regulatory requirements.

The results and benefits

Faster ESG Reporting

MFE implemented the ESG solution in less than two and a half months while simultaneously completing its financial closing process, enabling the organization to meet aggressive timelines without disrupting business operations.

Accelerated Disclosure Preparation

With Intelligent Disclosure, tasks that previously required hours or days can now be completed in minutes. The solution helps harmonize contributions from multiple stakeholders and creates more consistent reports across the organization.

Improved Auditability and Control

Workflow tracking, submission controls, and audit trails provide greater visibility into the reporting process while strengthening governance and compliance.

Rapid Onboarding of New Entities

Following the acquisition of ProSiebenSat.1, MFE was able to onboard new users quickly and efficiently, with only a few hours of training required for adoption.

One Platform for Finance and ESG

By extending its existing CCH Tagetik environment, MFE created synergies between finance and sustainability reporting while establishing a foundation for greater integration across future annual reporting processes.

About the customer

MFE-MEDIAFOREUROPE is Europe's largest pan-European broadcaster, serving audiences across multiple countries through television, radio, digital media, content production, and advertising services. With nearly 11,800 employees and €6.6 billion in annual revenue, MFE continues to expand its European footprint while driving innovation across both financial and sustainability reporting.
