OmniVault

Centralize loan portfolio management across all asset classes

Scan the QR code to learn more.

Wolters Kluwer launches the first OmniVault for Real Estate Finance using its award-winning e-vault technology to enable lenders to generate and manage digital assets for e-mortgage and other asset classes on a single platform.

Largest ecosystem in the industry
Over 800 originators, lenders, banks and custodians.

Proven scalability
Over 28+ million annual transactions.

The most securitizations
Over any other platform - 456 valued over \$164 billion.

Benefits

Proprietary technology has over 20 years of proven success.

Single provider improves procurement, vendor management and audit efficiencies.

Supports both Mortgage Electronic Registrations Systems (MERS®) and non-MERS e-registry transactions.

Granular access controls allow for departmental separation and greater visibility.

Multiple storage processes can result in ambiguity and inefficiencies, putting your compliance at risk.

Increase capital velocity, manage efficiency and compliance certainty with the industry's multi-asset class document management solution.

The eAsset® document repository allows you to tightly control and track access, status changes, and retention policies of your Digital Original documents, providing the highest levels of protection and compliance through the use of digital tamper seals and the most detailed audit trail and reporting functionality available in the market.
