

Health Library

Speech, Language & Hearing

Why Health Libraries?

Designed to support foundational learning and clinical practice, Health Libraries deliver trusted health science education and clinical content to students, trainees, fellows, program directors, faculty, and clinicians through a single portal — providing interactive online access to a combination of essential book content, multimedia & imagery, real-life case studies, and quizzes.

Health Library: Speech, Language & Therapy collection meets the evolving needs of today's learners, whether they've just begun their education or they're already a professional therapist. They'll learn from leaders in the field, get crucial clinical experience, and prepare for certification exams.

Key Features of Health Libraries:

A single portal to foundational and basic sciences resources, as well as rich multimedia ancillaries for teaching, learning, and practice.

- **Highly-rated references:** Trusted, core texts from Lippincott Williams & Wilkins, making it a one-stop, digital portal for authoritative content paired with industry-leading functionality
- **Account personalization:** Ability to save content to your own MyHealthLibrary, access Health Library from any computer, and set up email alerts for when new content is added
- **Quizzing:** Ability to create custom quizzes organized by topic and to keep track of responses and link to relevant content to help with remediation
- **Advanced semantic search:** Results displayed by title, chapter, topic, and/or type of resource
- **Responsive design:** Ability to browse content on your computer, tablet, or smartphone with ease
- **Multimedia ancillary content:** Access to videos, images, audio files, assessment questions, and more
- **Instructor resources:** PowerPoint presentations, lecture notes, test banks, and case studies accessible from directly within each Health Library and easy incorporation into courses; chapter and figure conversion guides help migrate from one book edition to the next, ensuring content currency

Powerful online learning package for Speech-Language Pathologists and Audiologists

Health Library Speech, Language & Hearing Includes:

- 15 core textbooks for the SLH student and practitioner
- Over 500 video and audio files covering fluency, audiology, voice, neuroscience, and anatomy and physiology
- More than 850 multiple-choice questions to assess comprehension of key concepts and procedures
- Content updated regularly!
- Key titles include:
Stuttering: An Integrated Approach to Its Nature and Treatment; *Neuroscience for the Study of Communicative Disorders*; and *Handbook of Clinical Audiology*

Health Library: Speech, Language & Hearing

LWW is a pioneer in medical and health science information, and the book collection features the following field-leading texts:

- Fuller: *Applied Anatomy & Physiology for Speech–Language Pathology & Audiology*
- Humes: *Audiology and Communication Disorders: An Overview*
- Burkard: *Auditory Evoked Potentials: Basic Principles and Clinical Application*
- Gordon-Brannan: *Clinical Management of Articulatory and Phonologic Disorders*
- Katz: *Handbook of Clinical Audiology*
- Emanuel: *Hearing Science*
- Chapey: *Language Intervention Strategies in Aphasia and Related Neurogenic Communication Disorders*
- Bhatnagar: *Neuroscience for the Study of Communicative Disorders*
- Alpinier Jerome: *Rehabilitative Audiology: Children and Adults*
- Raphael: *Speech Science Primer: Physiology, Acoustics, and Perception of Speech*
- Velleman: *Speech Sound Disorders*
- Guitar: *Stuttering: An Integrated Approach to Its Nature and Treatment*
- Nicolosi: *Terminology of Communication Disorders: Speech–Language–Hearing*
- Guitar: *Treatment of Stuttering: Established and Emerging Interventions*
- Colton: *Understanding Voice Problems: A Physiological Perspective for Diagnosis and Treatment*

Additional Features:

- **Regular content updates** that ensure users receive the most up-to-date reference material
- **Clean, user-friendly display** of book pages, including tables, images, and linked references
- **Multiple chapter views** including full chapter, figures only or tables only
- **Links to related content** in the collection for quick access, driven by powerful semantic tagging
- **Subject lists displayed** on textbook browse page for easy navigation, allowing users to filter by subject in search results
- **Images downloadable** directly into a PPT template

Who uses the Health Library Speech, Language & Hearing Collection?

- **Students!** Access required readings and digital assets for class—easily navigate between materials and share with classmates and colleagues.
- **Instructors!** Access PowerPoint presentations, lecture notes, test banks, and case studies from directly within each Health Library—and incorporate these and the books into courses.
- **Clinical staff!** Use assessments and treatment info to plan care for patients.
