Indirect Tax
process for your
organisation.**

Control and collaboration, from Australia, Singapore to the UK

Cloud-based for rapid deployment, CCH Integrator Australian Indirect Tax solution gives multinationals the ability to streamline and automate their collection, consolidation, validation and reporting processes to deliver lodgment-ready data. Collaboration is fostered through all stake-holders working together on a single source of data, providing the visibility required to better manage global tax risk.

→ End-to-end control

Your GST reporting is managed end-to-end within one platform, embedding critical data controls into your key tax processes. Transactional data is mapped to the Business Activity Statement for direct submission to the ATO. In-application data analysis, mapping, validation, and electronic lodgment mitigates integrity risk resulting from manual intervention or data transfer between systems.

→ Justified trust assurance

Our easy to configure functionality has been designed to satisfy the data tests outlined in the ATO's GST Governance, Data Testing and Transaction Testing Guide. Our range of data and transaction tests can assist you to gain assurance from the ATO over your GST governance framework and allow for the assessment of your GST results without the need for further tests. CCH Integrator can also seamlessly produce summary and exception transaction reporting.

→ Leading edge data validation

CCH Integrator's powerful validation engine ensures your Business Activity Statement disclosures align with the ATO's rules during the preparation and review processes. This removes the frustration of having to make multiple lodgment attempts in the lead up to your deadline.

→ Reduce reliance on manual spreadsheet analysis

Our solution automatically loads and analyses accounts payable and receivable transactions to identify errors, based on user configurable rules. This removes the need for manual spreadsheet analysis, allowing you and your team to reduce enterprise risk and more effectively use your time.

→ Configured to your needs

CCH Integrator can be swiftly configured to match your specific business needs. We'll work with you to make sure the system is mapped to your business's existing processes and indirect tax requirements – locally and internationally. Once implemented, our skilled and dedicated client support team is available at any time to help.

→ A complete tax solution

The CCH Integrator Australian Indirect Tax solution is part of a multi award-winning, cloud-based platform that allows collaboration anywhere, enables a single source of truth for decision making, and reduces risk with demonstrable governance and control for accurate and timely reporting.
