

Legisway Enterprise

Accelerate the transformation of legal intelligence
into business performance

Are you optimising your legal processes for today and tomorrow?

Corporate legal departments must deal with increasingly complex activities and are required to deliver efficient service on time as well as strategic value to support business growth. But strategic players cannot work in silos, disconnected from the business. Traditional solutions do not provide visibility over activities carried out in collaboration with other departments.

They need to step up with a **single scalable solution** empowering them to further drive strategy, streamline operations, and facilitate seamless collaboration with the business.

Legisway Enterprise: Multiple benefits in a single scalable solution

Easily manage your legal assets

Structure your legal data in a single central repository, covering all of your business activities and benefit from a dynamic, user-friendly, and easy-to-use tool.

Increase your productivity

Manage your documents with higher accuracy while filing quicker. Find information quick and save yourself time to focus on valuable tasks. Digitise processes from initiation to sign-off for improved efficiency and better outcomes.

Protect your business from risk

Benefit from a complete view of your risks, key deadlines and sensitive clauses.

Strengthen collaboration across the business

Enjoy more effective exchanges with the business via secure sharing and discussion tools, and structure incoming legal requests with our Legal Services Portal.

Simplify reporting and track KPIs

Reports, dashboards, organisational charts, statistics and key metrics... reap the benefits of powerful performance and KPI reports.
