

UpToDate around the world

Trusted by 2 million clinicians in more than
190 countries for evidence-based
clinical decision support (CDS)

Clinicians across the globe rely upon UpToDate® for trusted, actionable information both within their specialty areas and beyond. They turn to UpToDate to ensure current, accurate information that helps them deliver the best patient care possible.

“UpToDate is continually improving and giving updated information in a concise and practical way. It is written by experts and very knowledgeable professionals. My favorite topics are those related to infectious diseases. UpToDate is currently the most used online information resource in our daily clinical practice. The information is crystal clear and entirely reliable.”

Dr. Rogelio López-Vélez, MD, DTMH, PhD, Assoc. Professor, National Referral Unit for Tropical Diseases, Infectious Diseases Dept., Ramón y Cajal University Hospital, Madrid, Spain

“UpToDate is how textbooks should be — authoritative, exhaustive, and completely up to date. I use it myself regularly to check on issues outside of my own specialist area and always find it easy to use and the information invaluable.”

Dr. Andrew Weeks, MD, MRCOG, Professor of International Maternal Health, Sanyu Research Unit, University of Liverpool, United Kingdom

“From UpToDate, I find clinical manifestation for different syndromes or genetic problems which are quite rare.”

Dr. Marian Jaalama, Medical Specialist in Gynecology and Obstetrics, Kanta-Häme Central Hospital, Finland

“UpToDate’s impact on the quality of care is impressive. For speed, readiness, and ease. UpToDate has become indispensable for professional practice. I do not perform any service without having UpToDate opened.”

Dr. Eduardo de Oliveira Fernandes, Supervising Physician of the Internal Medicine Residency, Grupo Hospitalar, Conceição (GHC), Brazil

“In terms of the impact on our practice, using UpToDate has led to modification of plans 34% of the time, which is significant when we consider the improvement to patient outcomes.”

Dr. Fatheya Fardallah Alawadi, Director, Medical Divisions and Consultant & Head of Endocrine Department, Dubai Hospital(DHA), Dubai

“UpToDate has revolutionized our workflow on the wards and enhanced our ability to further promote quality patient care, particularly during the COVID pandemic and the blast crisis.”

Dr. Ali Taher, MD, PhD, FRCP, Division of Hematology & Oncology and Vice-Chair for Research, Department of Internal Medicine, and the Director of the Naef K. Basile Cancer Institute, American University of Beirut Medical Center (AUBMC), Beirut, Lebanon

“UpToDate has the value of a stethoscope and fever thermometer for us physicians. The tool has replaced quite a lot of textbooks and journals. Textbooks have their advantages when it comes to pathophysiological correlations ... but for everything where topicality is central, UpToDate is an unbeatable tool. We work with it on a daily basis. We don’t touch bound publications anymore.”

Dr. Michael Zeller, Senior Physician, Pediatrics, Klinikum Dritter Orden, Germany

“As International SOS works to support people whilst they are in unfamiliar and remote locations, we regularly access UpToDate to validate information and support our decision-making.”

Richard Baldry, Regional Medical Learning & Development Manager, International SOS, Sydney, Australia

“UpToDate is a reliable resource to obtain straightforward and comprehensive overviews. As a nephrologist involved both in patient care and research, I trust UpToDate with balanced content covering the spectrum of kidney diseases.”

Dr. Dario Roccatello, MD, Professor of Nephrology and Clinical Pathology, University of Turin Medical School, Turin, Italy
