

OneSumX for Risk: Fast-track ALM

OneSumX for Risk: Fast-track ALM is a pre-configured version of our trusted OneSumX for Risk platform. It delivers best-in-class asset liability management (ALM) and liquidity risk capabilities rapidly and within a limited budget.

A streamlined solution for ALM and liquidity risk management

Ideal for smaller, digital-first, and emerging banks, the Fast-track ALM software solution automates key risk reporting while enabling forward-looking risk analysis. With minimal IT requirements and a low total cost of ownership, it sets a robust foundation for expansion into IRRBB, profitability, and regulatory compliance.

Built for smaller banks under pressure

Smaller institutions often struggle with high costs, legacy systems, and manual work for ALCO reporting and simulations. Fast-track ALM addresses these challenges head-on:

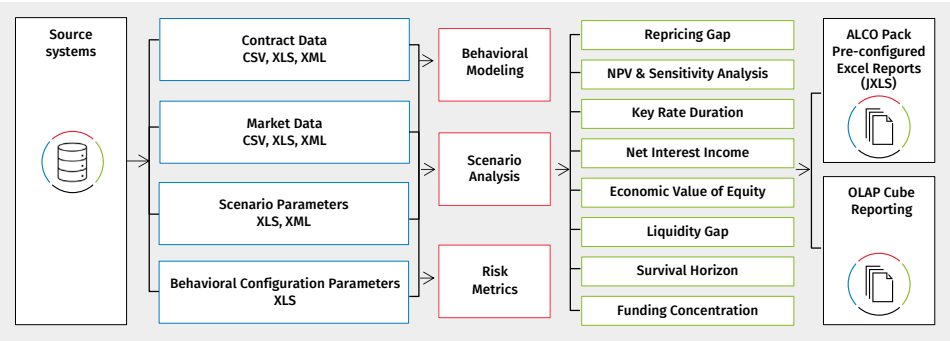

- Automates risk reporting for ALCO meetings
- Generates timely stress testing and scenario analysis
- Minimizes manual effort
- Avoids costly, large-scale system investments

With fast deployment and optional SaaS delivery, the solution can be up and running quickly, without the burden of traditional implementation cycles.
