

UpToDate Educate: Your patients deserve trusted information to make confident decisions

With trusted, evidence-based content aligned with UpToDate and UpToDate Lexidrug, you can help improve care coordination and patient satisfaction

Commit to excellent patient content and future-ready technology

Along with the decisions your clinicians make every day, the actions your patients take are critical to their health. With UpToDate® Educate, you can:

- **Deliver highly produced overview videos and leaflets from one location.** That means no more wasting time finding resources or forgoing videos because they are too expensive.
- **Promote meaningful discussions with patients** with expert-crafted educational content that is aligned with UpToDate®, the leading clinical decision support solution and UpToDate® Lexidrug™ referential drug solution.
- **Support equitable understanding of health information** with inclusive content in up to 19 languages and with diverse imagery and voices.
- **Focus your budget and efforts with one partner** for all patient education and engagement efforts.
- **Do more than just integrate, be ready to innovate.** From advanced EMR integration to dynamic websites, you can provide premium content anytime and anywhere it's needed.

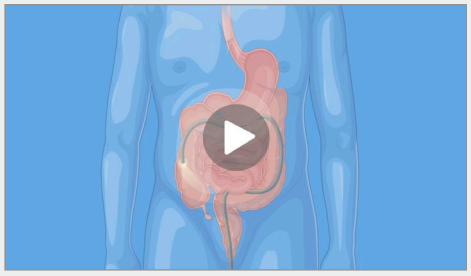

Professional-quality short videos on conditions, procedures, and follow-up guidance

Education leaflets covering:

- Conditions and procedures
- Adult and pediatric medications
- Natural products

Adult Patient Counseling Points* Brief versions of adult medication leaflets

*English only

"The video was informative. Since this is my first colonoscopy, I have a better idea of what to expect. The video was clear and detailed- the images and clear explanations help a lot."
